3-DAY Disaster Management Short Course

25 – 27 March
2026

Second Avenue Campus,
Nelson Mandela University

The course equips public officials with practical knowledge and essential skills in disaster risk management, including an understanding of key concepts, legislative frameworks, institutional coordination, risk monitoring, and the use of modern digital tools. The programme aims to strengthen municipal and provincial capacity for effective risk reduction, early warning, community resilience building, and integrated disaster response.

Cost :

R12 000 Per Person
